Agenda

- **Introduktion**
- **Microsoft Copilot**
- **Microsoft 365 Copilot**

Hvem her har hørt
om Copilot ?

Copilot in Bing

AI-powered chat for work.

Copilot for Dynamics 365

Provide AI assistance to boost the productivity and efficiency of teams involved with your business operations.

Copilot for Microsoft 365

Expand your organization's AI-powered productivity, skills, and creativity.

Copilot in Microsoft Fabric

Build end to end analytics efficiently.

Copilot in Power Apps

Build applications more efficiently than ever with streamlined, intuitive low-code development.

Copilot in Power Automate

Simplify automation creation using natural language expressions.

Copilot in Windows

Enhance user efficiency and creativity with this intelligent, AI-powered assistant.

GitHub Copilot

Use this AI developer tool to write code faster and with less effort.

Microsoft Security Copilot

Improve security outcomes at machine speed and scale.

Project Obsidian

Updated Engine Chip Design

Automated Car Team
October 21, 2023

Contacts	Email	Timeline
Lidia Holloway	lidia@contosoelectronics.com	Q4 FY 24

With our new investments in automated cars we need to redesign the AI500 chip to pull more throughput and reduce overheating.

We have attached more fans to the base chip but need more focus on the transistors across the entire board.

display.

- The keyboard is foldable and detachable, allowing you to use it as a stand-alone accessory or as part of the device.
- The processor is faster and more efficient, enabling you to run multiple applications and programs smoothly.
- The packaging is more eco-friendly and minimalist, using recycled cardboard and less plastic.
- The design is more modern and elegant, with clean lines and a single brand color.

How can I get DG-2000?

DG-2000 will be available in both physical and virtual storefronts, starting from April 5. You can pre-order it online from our website or from our authorized retailers. You can also visit our stores or our partner outlets to see and try the product in person. We offer free shipping and a 30-day money-back guarantee for online orders.

Where can I find more information about DG-2000?

You can visit our website, our social media pages, or our blog to learn more about DG-2000 and its features. You can also watch our video tutorials, read our user reviews, or contact our customer service team for any questions or concerns. We are always happy to hear from you and to help you get the most out of your DG-2000.

- What is Project Obsidian?
- Project Obsidian is a research initiative that aims to develop a novel framework for secure and scalable distributed computing. The project is led by a team of experts from academia and industry, and is funded by a grant from the National Science Foundation.
- What are the main goals of Project Obsidian?
- The main goals of Project Obsidian are to:
- Design and implement a new protocol for consensus and fault tolerance in large-scale networks
- Develop a new programming language and runtime for writing and executing distributed applications
- Provide a platform for testing and benchmarking the performance and security of distributed systems
- Explore the applications and implications of distributed computing in various domains, such as cloud computing, blockchain, IoT, and machine learning
- How can I get involved in Project Obsidian?
- Project Obsidian is an open and collaborative project that welcomes contributions from anyone who is interested in distributed computing. You can get involved in Project Obsidian by:
- Joining the project mailing list and Slack channel to stay updated and communicate with the
