Copilot in PowerPoint

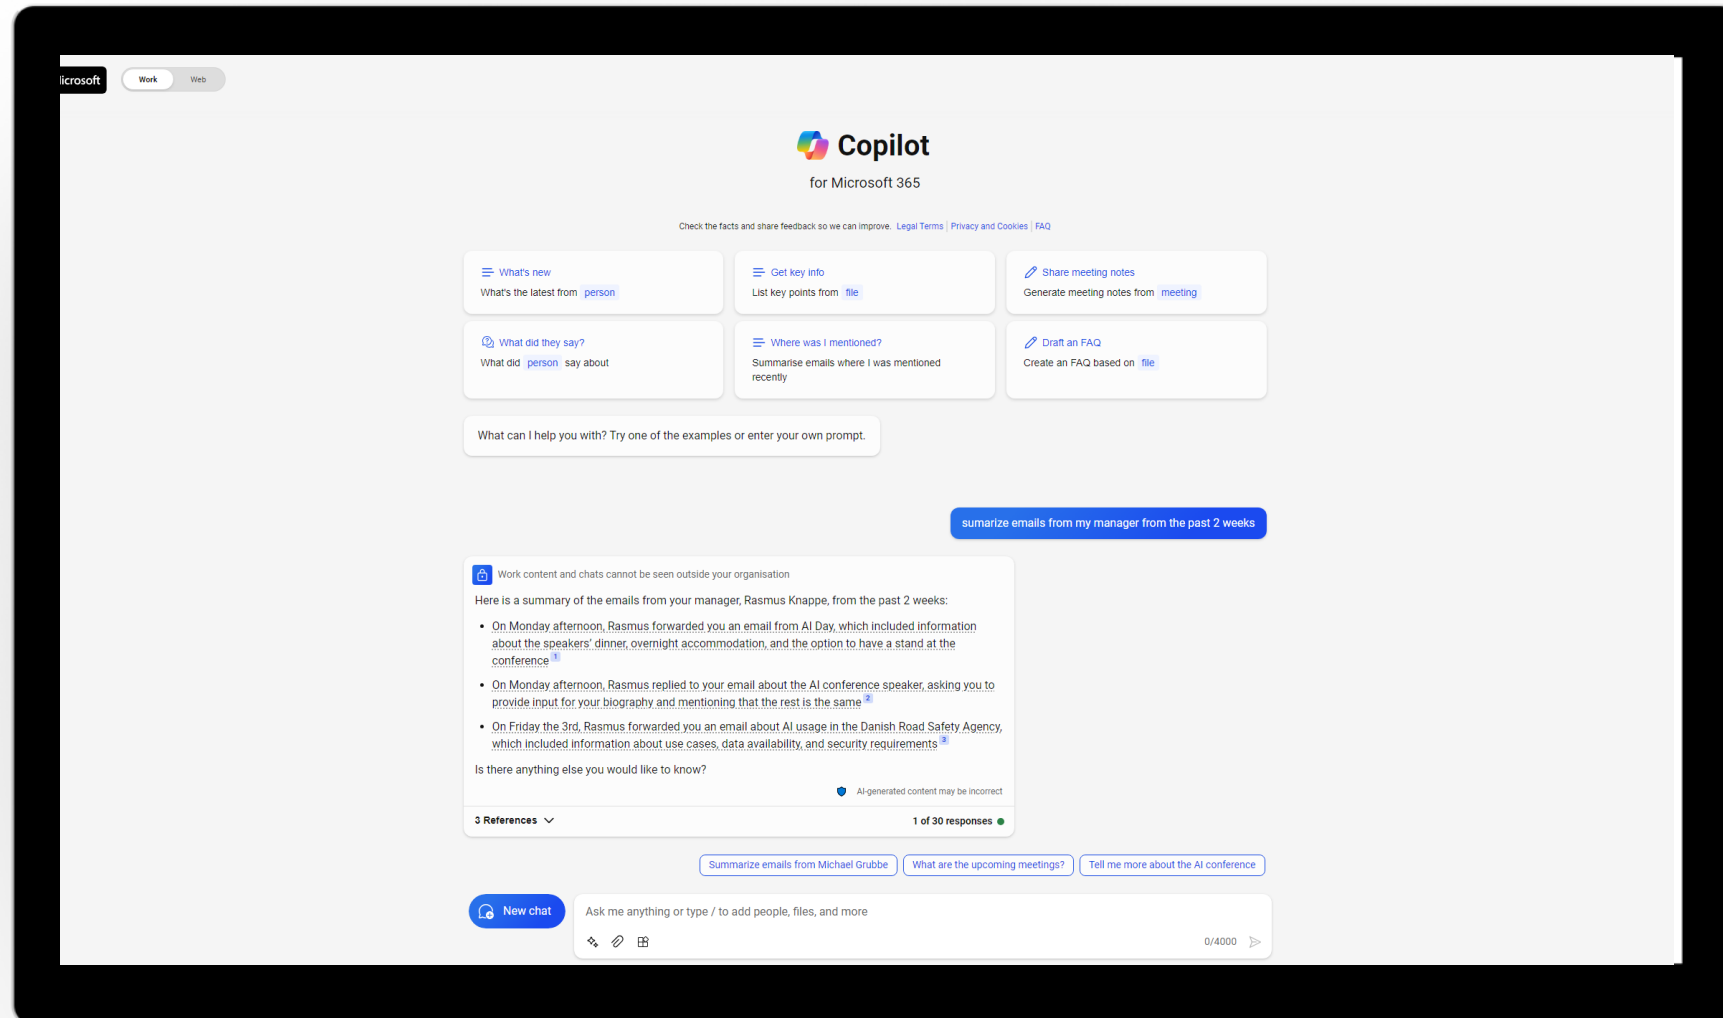

Copilot helps you turn your ideas into stunning presentations.

Some example prompts you can ask **Copilot**:

- Create a five-slide presentation based on a Word document, include relevant stock photos.
- Consolidate this presentation into a three-slide summary.
- Reformat these three bullets into three columns, each with a picture.

Updates 10th Edition Core Rules Commentary

There were two small changes. First, you always measure the closest part of a vehicle for everything. Then, if you have shot once in a turn, you can no longer shoot, so no targeting one unit with multiple shooting stratagems in one turn unless it says otherwise. 1 Nov 2023

Certainly! The **Balance Dataslate** is a new update to the Warhammer 10th edition game that was released in the fall of 2023. It contains a set of changes to the core rules of the game that are intended to balance the power of the different factions in the game.

The dataslate includes a number of changes to the game's core rules, including changes to the way that certain units and weapons work, as well as changes to the way that certain abilities and spells function. These changes are designed to make the game more balanced and to ensure that no one faction is too powerful.

You can find more information about the Balance Dataslate, as well as other updates to the game, on the official Warhammer Community website. The website provides a wealth of resources, including FAQs, errata, and other information that will help you stay up-to-date with the latest developments in the game.

I hope this helps!

Edit content filters

Content filtering configurations are created within a Resource and can be associated with Deployments.
[Learn more about configurability here.](#)

The default content filtering configuration is set to filter at the medium severity threshold for all four content harms categories for both, prompts and completions. That means that content that is detected at severity level medium or high is filtered, while content detected at severity level low is not filtered by the content filters.
